N-PACT (26-0-0, 33% SRN) is a patented triazone Slow Release Nitrogen, with a nitrogen stabilizer which provides increased foliar nitrogen uptake and translocation, reduced volatility and excellent crop safety. N-PACT consists of 17.40% urea nitrogen and 8.60% other water soluble nitrogen (Urea-Triazone Solution).

Product Benefits:

- Improved formulation with nitrogen stabilizer
- Excellent source of foliar nitrogen
- 31% more efficient in uptake versus other nitrogen sources
- Foliar safety
- Patented Triazone nitrogen allows for:
 - Increased nitrogen absorption
 - Increased translocation
 - Increased remobilization
