Active Ingredients

- urea-triazone
- potassium thiosulfate

A unique blend of urea-triazone and potassium thiosulfate. It is a chlorine free, clear solution containing 5% nitrogen, 20% potassium and 13% sulfur in the potassium thiosulfate (KTS) form. It may be applied soil sidedress, as a foliar feed, and/or injected through the irrigation system. It may also be used in conjunction with other fertilizer solutions in pre-emergent and post-emergent sprays.

Product Benefits:

- Excellent crop safety-chlorine free
- Contains a superior source of potassium (K) and sulfur (S) that is readily absorbed by the plant
- Contains a 5% urea-triazone nitrogen
