Active Ingredients

- glyphosate

Mad Dog® 5.4# provides broad spectrum weed control in both conventional & Roundup Ready® cropping systems. Developed to meet the ever evolving market demands, Mad Dog 5.4# provides a higher active loaded Glyphosate, treating more acres with less reloads.

Product Benefits:

- Higher load, more concentrated formulation that treats more acres per gallon with less need for reloads.
- Broad spectrum control of annual & perennial weeds.
- Excellent crop safety on all Roundup Ready crops when used as directed.
- Very compatible providing flexibility with tank mixes.
