## Active Ingredients

- Pinene

ATTACH is a non-ionic spreader sticker for use in two types of spray applications. ATTACH can be used with many soil-applied herbicides to reduce the effects of volatility, leaching and photodegradation. ATTACH can also be applied with foliar sprays to increase initial deposition and to delay photodegradation.

### Product Benefits:

- ATTACH'S unique pinene chemistry reduces photodegradation, leaching and volatility
- Reduces leaching dissipation of many soil applied herbicides
- Increases contact, wetting and adhesion
