Active Ingredients

- fluroxypyr
- 2,4-D ester

Combines COLT herbicide and the premium benefits of SALVO for convenient, economical, fast-acting control of resistant kochia and many other important broadleaf weeds in small grains, fallow, on-farm, non-crop and CRP acres.

Product Benefits:

- More dead weeds: Controls or suppresses 101 weed species
- More modes of activity: the systemic activity of COLT + SALVO shuts down weeds within hours
- Wide use window (4-leaf crop growth stage up to flag leaf emergence) with outstanding crop safety
- Great tank mix partner with many grass herbicides
- More certainty: COLT + SALVO is rainfast in one hour
