

E-Z MIX is a highly concentrated compatibility agent for direct addition to liquid fertilizers when a stable mixture of pesticides and liquid fertilizer is desired.

PRODUCT FEATURES

- Soluble in liquid fertilizers
- Aids in temperamental mixes due to temperature change

RATES

Preventative: 1-2 pts/100 gal

Curative: Start with 2 pts/100 gal while agitating mixture.
Increase to 4 pts/100 gal if homogeneous mixture is not accomplished with 2 pts/100 gal.

GROWER BENEFITS

- Often used to provide rescue in challenging tank mixes
- Reduces compatibility issues with busy tank mixes, especially when herbicides are included
