

STERANO II

S-METOLACHLOR

GROUP

15

HERBICIDE

STERANO II is a group 15 herbicide providing long-lasting weed control in over 40 weed species. With flexible options to apply early pre-emergence and post-emergence, STERANO II targets early-season weed pressure to protect yield in a variety of crops.

PRODUCT FEATURES

- Labeled for use on a variety of crops
- Allows for flexible application timing with options for early pre-plant, pre-emergence, and post-applied applications

RATES

See label for specific use rates

GROWER BENEFITS

- Offers broad spectrum control of most annual grasses and certain broadleaf weeds in a variety of crops
- Helps mitigate early-season weed pressure before crops emerge

MAXIMIZE PERFORMANCE WITH

For pre-emergence:

For post-emergence:
