FEATURES

- Active Ingredient
- Cyazofamid: 3.33 lbs/gal
Unique mode of action for extended disease prevention
Compatible with a wide range of fungicides
Labeled in 100+ crops for ease of use around the country
Formulation Type: Suspension Concentrate
Pack Sizes: 4 x 1 gal and 6 x 1 qt
Signal Word: Caution

RATES

See label for crop specific use rates.

GROWER BENEFITS

- Offers strong protective activity and extends disease prevention

MAXIMIZE PERFORMANCE WITH†

*See label for list of crop specific diseases controlled.

† For best product performance in all applications utilizing water volumes up to 60 gallons per acre, an organosilicone surfactant should be added according to the manufacturer's label recommendations in order to improve spray coverage when the disease infection is severe. However, a non-ionic surfactant or a blend of an organosilicone and a non-ionic surfactant may be used according to the manufacturer's label when disease infection is moderate or light. Do not use a surfactant in applications to grapes or in soil drench applications to greenhouse-grown bell peppers or tomato greenhouse transplants.
