

# ReaX<sup>PLUS</sup> MANGANESE

**REAX PLUS™ MANGANESE** is a liquid manganese (Mn) product designed for at-planting and drip, drench, and inline applications with foliar flexibility. Enhanced with unique C<sup>2</sup> soil health and plant performance technology and now fortified with Biocatalyst Technology. **ReaX Plus Manganese** is designed to improve nutrient availability to meet the yield and quality goals of growers in a variety of growing conditions year after year.

## PRODUCT FEATURES

- Unique C<sup>2</sup> formulation maximizes overall nutrient availability and mobility in the soil and superior uptake in the plant
- Flexible formulation designed for soil applications with foliar flexibility

## GROWER BENEFITS

- Provides 4% manganese for plant energy production and supports plant performance by encouraging nutrient utilization in the crop
- Stabilizes nutrients prone to movement in the soil for more reliably available nutrition

## ANALYSIS

- 4-0-0 4% Mn with C<sup>2</sup> Technology

## RATES

- Soil: 1-8 qts/A
- Foliar: 1-4 qts/A
- Fertigation: 1-8 qts/A
- Transplant water: 1-3 gal/A

## MANGANESE AT-A-GLANCE

- Mn activates several key enzymes important for lignin & phenolic acid production
- Sufficient plant levels of Mn reduce the incidence of disease.
- Decreases late blight, stem canker, and scab in potato
- Balanced Mn in wheat leaves reduces foliar burn of nitrogen solutions
