

**TURBOCAL™** (0-0-1) 10% Ca delivers calcium through a bioavailable amino acid complex, optimized for both foliar and soil applications. Enriched with seaweed extract and amino acids, it enhances calcium absorption and translocation, helping mitigate calcium deficiencies in a wide range of crops.

## FEATURES

- 10% Calcium (Ca) delivered as a highly soluble amino acid complex
- Formulated for foliar and soil application—flexible across cropping systems
- Includes seaweed extract and amino acids to support nutrient uptake

## GROWER BENEFITS

- Improves calcium uptake and mobility within plant tissues
- Helps prevent calcium-related disorders like blossom end rot, tip burn, and cracking
- Supports stronger cell wall development for improved shelf life and crop quality

## ANALYSIS

0-0-1 10% Ca

## RATES

Foliar 1-3 qt/A

Soil 1-4 qt/A
