

CONSENSUS® is an innovative seed treatment containing EPA-approved Plant Growth Regulator technology designed to promote early germination, quicker root development and stimulation of Systemic Acquired Resistance (SAR) stress resistance. Triple-charged to **Prime, Propel & Protect**.

FEATURES

- Unique combination of EPA-registered plant growth regulators
- Highly efficient, low volume formulation
- Compatible with many seed treatments

ACTIVE INGREDIENTS

IBA (Indole-3-Butyric Acid), Salicylic Acid, Chitosan

GROWER BENEFITS

- **PRIMES** seed for faster germination
- **PROPELS** a bigger seedling root system
- **PROTECTS** by activating the plant's natural defense mechanisms

RATES

Labeled for multiple crops at 0.33-1.0 fl oz/100 lb of seed. Soybean recommended rate: 0.4 fl oz/100 lb seed. Cotton recommended rate: 1.0 fl oz/100 lb seed

CONSENSUS®

Grower Standard **VS.** Consensus

13 Bolls **VS.** 35 Bolls treated with Consensus
