

DYNA-SHIELD® FLOWTECTION™ provides commercial treaters with state of the art technology to enhance seed appearance, improve seed flowability and control dust-off during and after the seed treating process. Labeled for crops including cereals, corn, legume vegetables and soybeans.

FEATURES

- Versatile formulation labeled for multiple crops
- Low viscosity for good mixing and easy application
- Reduces treatment buildup in treating equipment

GROWER BENEFITS

- Increases seed flowability for less bridging, better handling and improved plantability
- Helps control dust-off to keep valuable seed treatment components on the seed, and delivered to the seed furrow
- Can improve seed singulation and spacing

RATES

Cereals: 1-4 fl oz/cwt; Corn: 1-10 fl oz/cwt; Legume vegetables: 0.5-3 fl oz/cwt; Soybeans: 1-3 fl oz/cwt
