HERBIMAX is a premium oil/surfactant that increases penetration and the activity of post-emergence herbicides.

Product Benefits:

- Premium, fertilizer-compatible emulsifier stabilizes solution in the spray tank
- Increases herbicide activity and penetration of the plant surface
- Easy-to-use, non-foaming formulation allows easy mixing of chemicals and complete clean-out of the spray tank
- Can be applied by ground or air

Active Ingredients

- petroleum-based oil
