

MATADOR®-S is a soybean pre-emerge herbicide that provides burndown and long lasting residual control of grass and broadleaf weeds. Developed to provide maximum weed control in combination with weed resistance management to combat glyphosate and ALS resistant weeds.

Product Benefits:

- Unique formulation of three active ingredients, three different modes of action, from three different chemical classes to provide broad spectrum weed control in one pass:
 - S-Metolachlor
 - Metribuzin
 - Imazethapyr
- Burndown activity and long lasting residual provides the best possible start for the crop
- A higher concentration of actives compared to Matador [1]; which means lower application rates compared to Matador [1]

Active Ingredients

- S-Metolachlor
- Metribuzin
- Imazethapyr
