 $\mathsf{PRE}\mathsf{-}\mathsf{TECTOR}^{\textcircled{R}}\mathsf{PLUS}\mathsf{EC}$ is a soybean pre-emerge herbicide that combines Imazethapyr and Pendimethalin to offer residual and contact weed control through two modes of action.

Product Benefits:

- Two active ingredients provide different site of action herbicides in one convenient formulation
- Contact + residual weed control
- Controls multiple broadleaf weeds and grasses
- Effective in all tillage conditions
